

## Country Presentations Eve

The GSI welcomes you at the Summer Academy 2008. As every year we are going to perform a cultural evening at the beginning of the academy. Here every country is invited to do a little performance and show all the other participants: This is where we come from and now we're going to show you something about the beauty and singularity of our country.

This year the Country Presentations Eve of the Summer Academy takes place on

**Sunday, 31. August 2008**

**Start: 19.00 h**

Each country can have only one presentation. The way you perform is left to you: you can dance, sing, play...do everything you want in order to make your presentation bright, funny and memorable. A funny play, a little show, sing a song (together) - introduce your country in a colourful way. (From experience we can say, that a powerpoint-presentation giving facts about your country might be interesting, but is definitely less entertaining or exhilarating....)

Usage of national clothes (or other things you might bring from home) is welcomed.

The presentation of each country should be not longer than 5 minutes. Please observe these demand as there have registered participants from 18 nations.

Anyway, we look forward very much to seeing you!
